Firm Statement

Founded in Kyoto in 1981 as “Waro Kishi Architects” and re-organized as “K.ASSOCIATES/Architects” in 1992, our office has been a highly accomplished and professionally recognized practice for nearly 25 years. K.ASSOCIATES/Architects’ broad range of projects includes gallery and showroom spaces, higher education and academic buildings, public bridges, private houses, a sports complex, art installations, and furniture. Our prior experience working abroad includes locations such as Italy, Spain, France, Korea and China. K.ASSOCIATES/Architects has been the recipient of numerous awards in Japan as well as abroad.

The best architecture is achieved through a process of intensive, ongoing dialogue, collaboration, analysis, editing, and application of instinct and insight. K.ASSOCIATES/Architects energetically collaborates with the client and consultants arriving at appropriate solutions and results that are both aesthetically pleasing and pragmatically efficient works of architectural excellence.

Creative architecture must look forward as well as backward, deriving from but also extending history. Rather than responding with nostalgic regressions or future projection, K.ASSOCIATES/Architects has for years single-mindedly investigated the possibilities inherent within the present, discovering in each project a unique set of conditions that can be enhanced and embodied through architecture.

Describing Waro Kishi and his work, well-respected critic Tom Heneghan has stated, “he exploits the artifacts of mass-production - steel frames, precast-concrete panels, metal grilles- but transforms these mundane elements, by their detailing, proportioning and colouration-usually variations of white - into an assembly of finesse and usually of apparent physical lightness. His buildings, whatever their actual weight, seem to rest gently on the ground.”

Architect's Profile

Biography

2016-	Professor, Kyoto University of Art and Design
2010-2016	Professor, Kyoto University
2000-2010	Professor, Kyoto Institute of Technology
1993-2010	Taught Architecture Design in Kyoto Institute of Technology
1993-	Organized, Waro Kishi + K. ASSOCIATES/Architects, Kyoto
1981-1993	Taught Architectural Design in Kyoto College of Art
1981-1993	Principal, Waro Kishi, Architect & Associates, Kyoto
